// SUMMARY

Results-driven Software Engineer with a strong background in developing and optimizing applications. Known for delivering high-quality code, solving complex problems, and working effectively in team environments. Committed to continuous learning and improving development processes.

// SKILLS

>> Languages
> Javascript
> TypeScript
> Ruby
> CSS/SCSS
> TailWind CSS
> HTML
SQL

>> Frameworks
> React.js
> Express.js
> Next.js
> Redux
> Ruby on Rails

>> Testing
> JEST
> RSPEC
> Enzyme
> Cypress

>> Version Control
> Git

>> Data Analysis/Databases
> STATA
> PostgreSQL

/>

// EXPERIENCE

>> Software Engineer I
Solstice | May 2024 - July 2024
> Developed and deployed new features, driving project ownership and preparing for a technical lead role.
> Refactored code, improving performance. And ensuring highest quality when writing new code.
> Engaged in ongoing learning opportunities, such as training, workshops, or certifications, to stay current with industry
> trends and technologies.
Documented code and systems comprehensively, promoting
> clarity and knowledge sharing.
Engaged in design discussions and planning sessions to define project requirements and technical solutions.
Created scripts and tools to automate routine tasks, increasing efficiency and reducing manual effort

>> Junior Software Engineer
Solstice | June 2022 - May 2024
> Contributed to EnergyScore by developing a machine-learning algorithm for improved clean energy product access.
> Enhanced the Solstice platform through feature implementation, bug fixes, testing, and API integrations (frontend and backend).
> Collaborated in a Scrum environment with engineers, product managers, and other teams; participated in code reviews and agile processes.
> Led initiative to increase software accessibility for inclusive user experiences.
> Mentored junior colleagues.

>> Full-Stack/Software Developer Intern
Ripe Metrics | May 2022 - June 2022
> Took part in a highly collaborative team environment, startup environment.
> Wrote well-designed, testable and efficient code that meets technical requirements.
> Assisted in the troubleshooting of code defects and deployment of timely fixes.
> Learned new skills quickly and worked effectively in a fast-paced environment.
> Worked with Javascript, React, React Hooks, Redux

>> Full-Stack Development Student
LEARN Academy | Feb 2022 - June 2022
> Completed 640+ hours of direct coding experience in an intensive development bootcamp
> Gained proficiency in building full stack applications with Javascript, Ruby, Ruby on Rails, React.
> Utilized test driven development alongside full stack apps.
> Became a mentor during Jumpstart Weekend for prospective LEARN students.
> Utilized effective communication and teamwork through pair/mob programming.

// EDUCATION HISTORY

>> The Preuss School UCSD
High-School Diploma | Class of 2017
First Lego League Mentor and Programmer in Robotics Club
